

Make Our Own Shopping Bag

Stop using plastic bags,
use our own shopping bag!

You will need:

Buttons

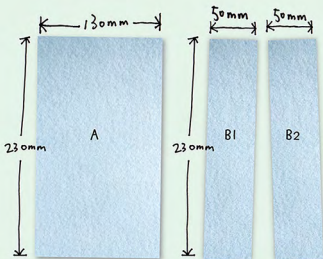

Threads and Needle

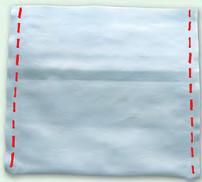

Step 1: Cut the felt to size

A (the body of the bag): 130 x 230 (mm)

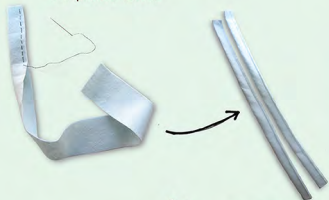

B1 & B2 (straps): 50 x 230 (mm)

Step 2: sew the two sides to make a seam,
leave the top edge open

Step 3: Sew the straps B1 and B2 as the picture shows

Step 4: Make two marks at an even distance from the center point of the open edge and sew on the straps

Step 5: Fold inside out

It's alright but it's a bit boring.

I sew two buttons, they're eyes.
I use spare felt to make a very long nose and two very big ears.
It's an elephant!

Saving the environment.
